

Environmental Technician (Co-op)

Benefits of hiring a Niagara College Co-op student

NEW TALENT | STAFF COVERAGE | PEAK SEASON | SPECIAL PROJECTS

Program curriculum focuses on preparing students for work in the field and/or lab work. Protecting and preserving environmental wetlands, water supplies and other natural habitats.

Student Competencies:

- Collect representative environmental samples, perform routine tests, and interpret results while adhering to standard methods
- Monitor activities that are potentially harmful to the environment and assist in their resolution
- Assist with the collection and analysis of biophysical information, including habitat assessments, to suggest restoration opportunities
- Suggest and engage in sustainable activities that promote stewardship of the environment by adhering to Environmental Best Management Practices
- Use established processes and protocols of environmental management systems to contribute to operational efficiency
- Document, maintain, and present technical information in various formats
- Adhere to occupational/environmental health and safety standards and applicable legislative requirements in all aspects of one's work

Our students have enhanced organizations in these areas:

- Air Monitory Technicians
- Environmental Field Technicians
- Environmental Lab Technicians
- Research Assistants
- Water /Wastewater - Lab and Field
- Solid Waste - Lab and Field
- Pest Management
- Plant Inspection
