

Greenhouse Technician (Co-op) Horticultural Technician (Co-op) Landscape Technician (Co-op)

Benefits of hiring a Niagara College Co-op student

NEW TALENT | STAFF COVERAGE | PEAK SEASON | SPECIAL PROJECTS

Program curriculum focuses on preparing students for work in Horticulture and Agribusiness. Our students gain practical and hands-on applied skills in horticulture, greenhouse and landscape work.

Student Competencies:

- Apply the principles of plant and soil sciences to horticulture work
- Use practical horticulture skills for production of plant materials, including herbaceous plants, woody plants and turf
- Use the principles of horticulture design, complete installation and construction projects
- Implement maintenance procedures for plants, property, and equipment
- Utilize knowledge of plant identification, usage, and maintenance criteria
- Apply the principles and practical skills of Integrated Pest Management (IPM)* to indoor and outdoor plants
- Use professional business practices appropriate to the horticulture industry

Our students have enhanced organizations in these areas:

- Plant and Garden Maintenance
- Nurseries and Garden Centres
- Landscape Design, Construction and Maintenance
- Park Maintenance and Preservation
- Greenhouse Operations
- Interior Plant Care
- Hydroponics
- Horticultural Research and Education
- Golf Course Maintenance and Greens Management
- Floral Design and Retailing

Academic & Co-op Work Schedule
